**Veg In One
Bed**

2019

Dorling

Kindersley

Month by month, discover what you need to do and how to do it. Try it in your allotment, a small garden, or even on a roof terrace.

Everything is explained in clear, photographed steps: building your bed, growing from seed, planting, feeding, and harvesting. Huw shows how to guarantee early success by starting off young plants on a windowsill. He suggests what to grow in each part of the bed, and provides alternative vegetables to swap in or out depending on what you like eating. No-dig gardening methods remove most of the back-breaking work, too.

VEG IN ONE BED goes beyond the inspiring demonstrations on his YouTube channel Huw's Nursery. In this book he organises all his ideas and suggestions into a blueprint for growing your own vegetables month by month. Little growing experience? Only a small space? No matter - with VEG IN ONE BED, you can still eat food you have grown all through the year.
