

George Wigzell

Children's Author

George is a writer and actor, based in the UK.

George grew up in a housing cooperative in Leeds and his first great love was food (early favourites were Indian sweets and taramasalata). His passion for imaginary play was heavily influenced by the pervading air of northern '80s socialism, which saw him and his younger brother becoming coalminers, librarians or holding meetings for the local council with an imaginary colleague called Margaret. Thrilling stuff.
