SAS Operation Storm 2011 Hodder & Stoughton	SAS OPERATION STORM is the inside story - told by those who took part - of the greatest secret war in SAS history. The tipping point, Mirbat, South Oman, 19 July 1972 is one of the least-known yet most crucial battles of modern times. If the SAS had been defeated at Mirbat, the Russian and Chinese plan for a communist foothold in the Middle East would have succeeded, with catastrophic consequences for the oil-hungry West. SAS OPERATION STORM is a page-turning account of courage and resilience. Mirbat was a battle fought and won by nine SAS soldiers and a similar number of brave local people - some as young as ten years old - outnumbered by at least twenty-five to one. Roger Cole, one of the SAS soldiers who took part, and writer Richard Belfield have interviewed every SAS survivor who fought in the battle from the beginning to the end - the first time every single one of them has revealed their experience. SAS OPERATION STORM is a classic story of bravery against impossible odds, minute by minute, bullet by bullet.

Can You Crack The Enigma Code? 2007 Orion	From the earliest days of mankind, people have sought to pass on secret messages via code - and for almost as long, cryptographers have tried to break the codes. Most famous of all were those at Bletchley Park who managed to break the Nazis' 'unbreakable' Enigma code. This fascinating and intriguing book examines some of the most difficult codes in history that have withstood years of investigation and shows the reader how they too can learn to solve or create almost any code.
Terminate with extreme prejudice 2005 Robinson Books	Inside the assassination game - what really goes on before the smokescreens go up? 'Assassination can seldom be employed with a clear conscience. Persons who are morally squeamish should not attempt it ...No assassination instructions should ever be written or recorded.' CIA Assassination manual, 1954 The cost of a bullet can be as little as 8 cents. Assassination has long been more common than anyone (particularly anyone in government) likes to admit - it is the great untold secret at the heart of the nation state.
